

The "Murgoi-files"

by Jesús Murueta Goikoetxea

(also known as 'Murgoi' of 'El Canadiense')

This is the pdf-version of 344 individual pages compiled by Murgoi. They are the accounts of his countless trips undertaken in the years 2000-2003 to find and photograph all the esfr-bordermarkers of the Basque country (no. 1-272).

Each bordermarker has its own page and consists of handwritten and typed

descriptions, directions and pictures. Part of the pictures are his, others come from other sources. Besides this, there are many maps.

Jesús Murueta Goikoetxea is a native of Bilbao but lives since long in Canada. He returned many times to visit family & friends and to fulfill his dream: this project. Now - being in his seventies - he's more than happy to share his collection and experiences.

NOTE: Murgoi has - besides his own pictures - used pictures and documentation from various unknown sources. Originally intended as a personal account, he didn't bother about specifying his sources.

At present (march 2014) Robert Darrieumerlou has informed me that four old pictures (of markers 67, 80, 87 and 98) originate from his website (<http://robertauxbornesdespyrenees.kazeo.com/>)
